

## Customer Testimonial

### RECOMMENDATION FOR MELPRO DEVELOPMENTS PTY LTD

In November - December 2007, Tim Patterson, of Melpro Developments Pty Ltd was employed by me to complete renovations to my apartment. Tim and his workers were at all times professional and their attention to detail was fantastic.

The work involved stripping the kitchen and bathroom and starting from the ground up. The men rearranged the bathroom, including plumbing, fittings and tiling to walls and floor, and building and installing cabinets and cupboards in the kitchen, and tiling the floor. The electrician installed new lighting in every room, checked every existing power point, and installed several new ones, particularly in the bathroom and kitchen. They also stripped the wooden floor in the corridor and lounge/dining room, painted throughout and installed a split system air conditioner.

Because I was unwell and couldn't go looking at fittings etc, Tim brought chits, colour cards etc to me, and made decisions about the stove/oven, taps in both rooms and anything else that needed to be decided. He communicated with me regularly, and I was welcome to drop in at any time to see how things were progressing.

I have nothing but the highest praise for the work done. It was completed in the four weeks quoted, and the whole apartment was left spotless when completed.

I can confidently recommend Melpro Developments to complete any work which needs to be done in a house, apartment etc, and would have no problem recommending Tim and all the men involved as people of the highest integrity, trustworthiness and thoroughness.
